

# Let's create a project together

Wednesdays 4 – 5:30 pm

Together we belong!

Do you want to stand up against discrimination by organizing an exhibition together?  
While learning how to plan & realize a project at the same time?

Then come to the “Project Factory”!

Together with like-minded people, we develop an exhibition to raise awareness of the effects of discrimination on the wellbeing of individuals and society.

From the content and special design to the planning, organization, implementation, and evaluation, you'll have the opportunity to get involved in what you're good at, or what you still want to learn.

Time? Please be on time as the doors are closed. We pick you up outside the door 5 min before we start. We start and end the workshop together.

Held by a project manager, who is a PoC cisgender man.

André Nouruzi-Pur (he/him)
